TESTO XTREME

WEIDER's New Testosterone Booster

- 15 new ingredients
- Contains Ashwagandha, Fenugreek extract and Maca
- Boosts natural testosterone production

Following long and extensive research, WEIDER has developed Testo Xtreme to provide maximum support to your testosterone levels, your steroid hormones and muscle function.

Testosterone is a key hormone for growing and maintaining muscle mass. Consequently, it is closely related with energy spending, moods and libido.

This new formula is backed by evidence from numerous scientific studies y contains compounds whose effectiveness has been proved:

- **Fenugreek extract:** a very popular plant in India and the Near East, used to increase men's testosterone and libido.
- **KSM-66 (Ashwagandha):** a patented and clinically tested extract which augments energy, strength and resistance levels. In addition, it helps improve the feeling of wellness, regulating anxiety and stress.
- **Maca:** a plant from the Peruvian Andes which contains a powerful combination of nutrients that provide energy and cooperate in balancing and regulating the hormonal system of both men and women, as well as strengthening the immune system.
- **Rhodiola Rosea:** a plant extract that reduces cortisol levels in blood aiding our sense control when feeling stressed.
- **Cordyceps:** an adaptogen and energetic ingredient that works as an antioxidant, boosts vitality and physical performance.
- **Zinc:** an important mineral to the normal function of the hormonal and immune systems.
- **Choline:** a water soluble vitamin that plays a key role in the metabolism of fats.
- **Chromium:** mineral involved in reducing insulin resistance thus helping to control glucose levels.

To improve Testo Xtreme's formula we have added the perfect combination of vitamins that promote the synthesis and metabolism of steroid hormones, reduce fatigue and foster a smooth muscle function.

Nutritional Information	per 4 capsules
